11716

Elegant and cosy dining.

madison 11716 invites you to dine comfortably thanks to its excellent seating comfort, which is visually emphasised by the cosy design. The benches are available in different versions. Chairs and armparts are optionally available with a function for friends of high-class comfort. An elegant flat steel runner and the design piping on the outer edges of the upholstery perfectly round off the homely appearance.

adj. = **SV1** (surcharge)

Flexible armparts

The armparts are foldable and fitted with a notch function for a surcharge. Item no. = SV1, SV2.

Elegant stand base

The MD chair has a stand frame which can be equipped with a swivel function (art. no. DDB) or swivel function with return spring (art. no. DRF) for surcharge.

Simply nice

The discreetly used, striking tuck at the outside edges of the upholstery provides a unique look.

ORDER INFORMATION

Flexible armparts:

In the case of flexible armparts a maximum weight-bearing capacity of up to 25 kg is guaranteed. They are not to be used for sitting on. The adjustable armpart is used in straight or completely opened out function. A position in between is not planned.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

All of the dimensions given are approximate dimensions in cm in width/depth/height/seat height. We reserve the right to make changes.

Seat depth: approx. **52 cm**

Seat depth chairs: ca. **48 cm**

Armpart pillow (incl. piping):

Width: approx. **32 cm**

Depth: approx. **62 cm**

Height: approx. **8 cm**

Height from seat, when folded up: approx. **26 cm**

Armpart width chairs: approx. **6 cm**

Armpart height chairs: approx. **66 cm**

Note on seat height:

The final seat height on this model is only reached over time by sitting in, due to the upholstery construction.

Particularly casual upholstery:

The upholstery of the model is particularly casually processed to create a certain visual appearance, which is characterised by a super soft surface. Covers may already show a pronounced wavy appearance on delivery, which is intentional due to the design and construction and may become even more pronounced with

use. This is not a quality defect, but a model-related characteristic.

Load capacity:

A maximum load capacity of the benches of up to 80 kg per 70 cm seat is guaranteed.

Load-bearing capacity:

A maximum load-bearing capacity of this chair up to 120 kg is guaranteed.

Digital fabric/leather and colour samples:

The visual appearance of the covers and colour samples may vary, samples in accordance - colour and structure deviations possible.

Frame structure of the chairs:

The chairs have a different frame structure than the group. This also results in a different seat firmness.

1. Frame - metal frame foamed in cold foam
2. upholstery structure seat and back - metal frame foamed in cold foam, ergoPUR foam with diolen cover

The measurements are given incl. tuck.
