All specified dimensions are approximate in width/depth/height/seat height. We would like to point out that deviations of +/- 2 cm may occur depending on the filling material used and its upholstering. Please contact us if you would like more detailed information. We reserve the right to make technical changes.

Metal coloured legs
Some legs are available in the metal colours high-gloss chrome, silver, bronze, anthracite or black. Please indicate.

Armchair
The armchair is part of the model range and also can be used as an eye-catcher in your living space because of its beautiful appearance.

ORDER INFORMATION

Frame structure of the individual armchair and the chair:
The individual armchair and the chair have a different frame structure than the group. This also results in a different seat firmness. The armchair and the chair have no spring core in the seat. The seat upholstery structure is of **ergo**-PUR foam and a high quality mix of polyester fibres and foam rods, filled in boxes. The back upholstery structure is of **ergo**-PUR foam.
Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.
All of the dimensions given are approximate dimensions in cm in width/depth/height/seat height. We reserve the right to make changes. The measures for the individual armchair M refer to the leg F 49. The free-swinging frame of the MZ armchair is

protruding by about 4 to 5 cm.
Seat depth: approx. **45 cm**
Seat depth armchair: approx. **43 cm**
Seat height armchair with leg F60 or F84: approx. **52 cm**
Seat height chairs: ca. **53 cm**, lowers a little when sitting on
Armpart height armchair: approx. **63 cm**
Armpart height armchair with leg F60 or F84: approx. **65 cm**
Seat depth chairs: ca. **42 cm**

Especially casual upholstery:
The upholstery is especially casually processed to create a certain appearance with a super soft surface. The covers may already show a pronounced wavy appearance on delivery, which is intentional due to the design and construction and may become even more pronounced with use. This is not a quality defect, but a model-related characteristic.
Information on the upholstery structure:
Chamber cushions filled with a high-quality mix

of polyester fibres and foam rods have been used in the seat and back. This can lead to depression of the individual chambers, which is a typical product characteristic.
Digital fabric/leather and colour samples:
The visual appearance of the covers and colour samples may vary, samples in accordance - colour and structure deviations possible.

cm taller)

F 84

Metal colours:
Some of the metal legs are available in diffe-
rent metal colours. Please indicate the colour
when ordering.

Powder-coated:
The colours M21 silver, M56 bronze and M99
black are powder-coated.
Legs for armchair:

The armchair M is available with the metal
leg F49 and the castors F60 or F84, only. The
castors F60 and F84 are 2 cm taller. For that
reason the seat height changes to ca. 52 cm.

The MZ chair ist available with the free-swin-
ging frame FH9 in different metal colours (no
surcharge), only.
