

[16555]

Elegant all-rounder.

*The adjustment of the **seat depth** allows individual sitting positions - upright or completely relaxed. The narrow wooden base enhances the straight-line, elegant **design language**. The leg is available in different metal colours.*

Flexible seat depth

Every item with the term "L" has a movable back support for some centimeters backwards to extend the seat depth. Also the total depth changes.

**Wooden base**

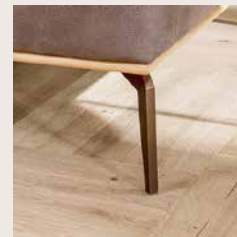

The base in oakwood is wonderfully integrating into the models' shape.

**Contrast thread**

This model is available in leather and some fabric colours with contrasting colour thread on request at no extra charge.

**Metal coloured legs**

Some legs are available in the metal colours high-gloss chrome, silver, bronze, anthracite or black. Please indicate when ordering.

**Thread implementation**

The model is produced with a special, thicker, in itself intertwined and glossy thread in leather or the fabrics S37 and V52. See order information. If not wished for, the thick yarn can be replaced by the standard one.

**Order information****Back sides of sofas:**

All pieces are genuinely upholstered at the back.

Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Thread-implementation:

The model is manufactured in leather and in fabric S37 and V52 as well as in connection with contrast thread request generally with a special thread. This is a stronger, beautifully woven thread. If you explicitly do not want this yarn, a standard thread is used.

Contrasting thread:

This model is available in leather and some fabric colours with contrasting colour thread on request at no extra charge. You will find the specified colours on the cover sheet of the individual leather qualities in our fabric/leather trolley. Please always state the contrast thread number, otherwise it will be delivered tone in tone.

Base leg Z:

If elements and sofas with or without an arm part are to be attached directly to elements or sofas with or without an arm part, a base leg Z is required. The base leg must be ordered separately. See price list.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height. The measures refer to the leg height ca. 19 cm.

Seat depth: ca. **61 cm**

Seat depth, if seat depth adjustment is at the back: approx. **80 cm**

Total depth if seat depth adjustment is at the back: ca. **110 cm**

Crease formation:

Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which can lead to the formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.

Chromatic aberrations:

The wooden structure is different from ordering to ordering. Deliveries after colour samples are basically excluded from complaints and exchange. We take care of the best correspondence possible.

Covers in model images/digital fabric/leather and colour samples:

The visual appearance of the covers and colour samples may vary, samples in accordance - colour and structure deviations are possible.

Order checklist

- Structure and cover
- Metal colour for legs
- Ottomans/panel for ottomans (order information)
- Contrasting thread
- Pillows
- Base leg Z

Upholstered furniture frame structure

- 1. **Frame** – beech wood structure; back: metal construction
- 2. **Seat suspension** with permanently elastic wave springs
- 3. **Seat upholstery structure** – spring core with diolen cover incorporated into ergo-PUR-foam
- 4. **Back suspension** with upholstery strap and ergoPUR-foam
- 5. **Back upholstery structure** of ergo-PUR-foam with diolen cover

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Legs

metal leg gloss diff. metal col.

F C4

Metal colours:

All legs are available in different metal colours. Please indicate when ordering.

Powder-coated:

The colours M21 silver, M56 bronze, M95 anthracite and M99 black are powder-coated.

Legs and floor protection:

In case of very slender furniture legs with deliberately filigree shapes and with small surfaces, it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you barely move the furniture, it can be helpful to have a

carpeted floor.
