Extendible bed surface

Some items can be fitted with the seat extension in return for a surcharge. The total depth extends. Item no. = A02.

Striking armpart

This model has a beautiful, striking armpart, which makes it into something very special.

Contrast thread

This model is available in leather and some fabric colours with contrasting colour thread on request at no extra charge.

Curved seam course

This model is equipped with a nice, curved seam course in the front of the seats.

ORDER INFORMATION

Extendible bed surface:

The sensor touch button for the seat extension by motor is located in the middle between the seat cushions. No load may be placed onto the front edge of the seat of free-standing sofas N 75 and N 85 if the seat is extended. This may cause the sofa to tip.

Back sides of sofas:

All pieces are genuinely upholstered at the back.

Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Positioning diagram:

Please send us a positioning diagram, depending on the different variations available. The connecting sides got marked in red for some elements in the type guide.

Base leg Z:

If elements and sofas without or with 1 armpart are to be placed directly against elements or sofas without or with 1 armpart, a base leg Z is required and must be ordered.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out

of the fabric version or replaced with simple seams. **The seam appearance with felled seam is standard at this model.**

Contrasting thread:

This model is available in leather and some fabric colours with contrasting colour thread at no extra charge. You will find the specified colours in our fabric/leather trolley. Please state the no., otherwise tone-in-tone will be delivered.

All dimensions given are approximate measurements in inches. We reserve the right to make changes. The dimensions are given in width/depth/height/seat height.

Seat depth: approx. **62 cm**

Seat depth with function: ca. **82 cm**

Seat depth one arm chaise: approx. **143 cm**

Overall depth with function: approx. **122 cm**

Armpart width: approx. **25 cm**

Armpart height: approx. **60 cm**

Note on upholstery construction:

Ticking cushions have been used in the seat and back. This can lead to the marking of individual chambers and is a typical feature of the product.

Especially casual upholstery:

The upholstery is especially casually processed to create a certain appearance with a super soft surface. The covers may already show a pro-

nounced wavy appearance on delivery, which is intentional due to the design and construction and may become even more pronounced with use. This is not a quality defect, but a model-related characteristic.

Please note:

Special designs may be made on some elements in return for an extra charge. Please consult us. We are happy to make your dreams come true.

Digital fabric/leather and colour samples:

The visual appearance of the covers and colour samples may vary, samples in accordance - colour and structure deviations possible.

LEGS

Metal runner high-gloss chrome

F 9G

metal runner, matt

F 9H

metal leg **different metal colours**

F S1

Runners:

We assemble optically matching legs instead of the runner at the front of the enlarged seat of the one arm chaises.

Metal colours:

Some of the metal legs are available in different metal colours. Please indicate the colour when ordering.

Powder-coated:

The colours M21 silver, M56 bronze and M99

black are powder-coated.

Legs and floor protection:

With slim furniture legs with a small gliding surface, there is increased pressure on the floor. We recommend fitting glides or an

underlay to protect against scratches and pressure marks on sensitive floors.
